

10 Tips for planning a Flooring Renovation

Set a Budget

Determine how much you can afford to spend on the renovation.

Research

Look into different types of flooring materials and their pros and cons.

Consider the room: Think about the function of the room and choose a flooring type that will suit it.

Measure

Measure the room accurately to determine how much flooring material you will need.

Hire a Professional

Consider hiring a professional to install the flooring if you don't have experience.

Choose a Style

Choose a flooring style that complements your home's aesthetic.

Consider Durability

Choose a flooring material that is durable and will hold up to heavy foot traffic.

Factor in maintenance: Consider the maintenance required for each type of flooring and choose one that suits your lifestyle.

Plan for the Future

Choose a flooring material that will stand the test of time and won't need to be replaced in a few years.

Plan for Downtime

Plan for downtime during the renovation process and make arrangements for temporary living arrangements if necessary.
